

Dear Friends,

May the Star shine brightly as needed upon you in life and your work for White Eagle. May it uplift you or comfort you, depending on the circumstances or situation you are in. May it always be your guiding force to higher spiritual ground in compatibility with the great white spirit of all things.

Hello, my name is Goldy. Some of you I have met in person or online, and some I have yet to meet but hope to do so soon.

It is indeed my good fortune to have been offered the service position of regional coordinator for White Eagle Northern Ireland. Naturally when our White Eagle Lodge Mother, Jenny Dent, asked me I said yes with no hesitation. The doubt and questioning of whether I could do this came afterwards.

I'm still here and eager to be so! I, along with the those in spirit, we can move mountains of all that would hold us back or keep us frozen in fear. However I do still wonder what White Eagle and the master see in me. I may never know in this life, but it's enough that they see something and are willing to give me this opportunity. I have already mentioned it's a service position, not a title or position of power; please don't see it as such.

As a coordinator for NI, it's to act as your bridge between our area (Northern Ireland) and New Lands. I do know I'm a decent bridge!

It's to organise retreats that might be of specific interest to you, to organise healing groups and services and include fun activities that you have either tried already or would like to try such as walking meditations, sound baths, Star attunements, earth healing outdoors and so much more.

Please, if you let me know I will listen and hopefully achieve for you.

We are already running a First Sunday of the Month Zoom service while we look for suitable accommodation. We held a wonderful full moon get-together on the beach for earth healing and organised a campfire at Crawford's Burn (see image).

We hold regular earth healing at the park in Holywood, regular animal healing, distant healing and contact healing. I'm really looking forward to this.

One of my favourite ways to do earth healing is at the very many beautiful ruins of churches, chapels and sacred areas around NI. It's great work and lots of fun with [mostly] beautiful weather.

Regarding the White Eagle centre in the south, my heart is heavy for you at the retirement of your coordinator. Please let me extend the hand of friendship to you dear souls. If possible, activities can be organised in the south with the will of God and with a few local people, TOGETHER WE CAN!

I have been well informed over 30 years that Ireland is the heart chakra of the world. The heart chakra is wherever I happen to be ensconced in love and generosity, and to just let others more wise or more adamant decide about it.

I will leave you with a beautiful prayer from White Eagle in 'Earth 'Healer, for wherever you happen to be when reading this:

‘Seek to work in harmony with the angels of the Star to bring healing to our planet...and the hearts of humankind as they walk on Mother Earth.’

With love and light,

Goldy

NI Regional Coordinator
